Oslo, Norway

Professional summary

- Senior Product Designer with 9+ years of experience creating user-centered solutions for complex SaaS, B2B, and data-heavy products for global companies.
- Design Systems leader — built and managed Xeneta's design system from scratch, now adopted across the entire design organisation.
- Deep expertise in end-to-end UX ownership, from discovery and user research through to developer handoff and implementation review.
- Experienced in data visualisation — turning complex freight market intelligence into clear, actionable interfaces for enterprise users.
- AI-augmented workflow: integrates Figma AI, ChatGPT and Claude into daily design practice.

Work experience

Xeneta, B2B SaaS, Mar 2023 – Present

Senior Product Designer · Oslo, Norway

- Lead designer on the Ocean Core — Xeneta's primary product and main revenue driver — owning the full design lifecycle for the platform's core business.
- **Built Xeneta's design system from scratch**; now adopted by all designers across the organisation, enabling consistency, scalability and faster delivery.
- **Lead discovery, stakeholder workshops, user interviews and usability tests** through to prototyping, final delivery and implementation review with engineering.
- **Design complex freight market data visualisations** that reduce cognitive load and improve decision-making speed for enterprise users.
- Use Figma AI, ChatGPT and Claude daily for research synthesis, ideation, content and prototyping.
- Partner with PMs, engineers, data analysts and senior leadership to align UX decisions with business goals and technical constraints.

KAVAK, Automotive B2C, Feb 2022 – Mar 2023

Senior Product Designer

- Sr. Product Designer in the Operations department — designing internal tools for car inspectors to evaluate vehicles, upload content and log repair parts.
- Applied the Double Diamond methodology, grounding design decisions in usability tests, interviews and surveys.
- Designed workflows that matched inspector mental models, reducing task completion time and error rates in critical operational processes.
- Collaborated with engineers, PMs and designers to deliver solutions on aggressive shipping timelines.

OCC Mundial, Recruitment Platform, Jul 2019 – Feb 2022

Product Designer II

- Product Designer in the Recruitment & Omnichannel department at Mexico's leading job platform.
- Improved core recruitment flows through user journeys, wireframes, prototypes and high-fidelity mockups that directly increased engagement metrics.
- Contributed to and improved the established design system, with component additions adopted org-wide.
- Collaborated daily with UX researchers, PMs, Tech Leads and engineers in agile, cross-functional squads.

IW – Innovation Workshop, Marketing agency, Jun 2017 – Jul 2019

UI/UX Designer

- Designed user-centered UX/UI solutions across web and mobile app projects for multiple client verticals.
- Progressed from part-time Junior Designer to full-time UI/UX Designer within 18 months.
